

CNN Meeting Agenda

02/01/07

1. Report on meeting with Provost Campbell

- a. Liked online scheduling – encourages everyone to get on board.
- b. Why aren't all nano grants routed through CNN?
- c. MRI and Keck (contributions, ongoing support).

2. Update on instrumentation grants

- a. MRI (Amit + Bennett, TEM).
- b. Keck (TEM, possibly a suite of instruments).
- c. Development Office

3. CNN News

- a. *Website update*: Faculty biographies, papers (with linked pdf files), and links should be **all up to date**. Please send Mario new papers, images.
- b. *Online equipment scheduling*: the Google Calendars system is now functional and in use for **3 instruments**: the Nanoprinter, the Nanoindenter and the Asylum AFM. Please see Mario about using this feature for the equipment in your lab.
- c. *BioForce NanoArrayer*: training continues on this instrument; we now have a training video. BioForce has requested a short report on what has been tried so far.
- d. *Photonic Crystals symposium*: May 16th – two LEOS Distinguished Lecturers from Japan (Baba + Notomi), looking to get ~6 more people.

4. Future directions

- a. *New faculty in nano*: Altug, Averitt, Doerr, Faul, Porter, Reinhard, Tsui.
- b. *Upcoming grant proposals*: PIRE, Keck, ERC, MRSEC.
